Varicose Vein Screening

**Casa Colina Diagnostic Imaging Center located inside the Kittell Building
255 East Bonita Avenue (at Garey) in Pomona**

Varicose veins are not just a cosmetic issue. It's important to find out the underlying cause of heavy, painful, unattractive legs so safe and effective care can be administered. The innovative VNUS Closure procedure can typically be performed in a physician's office using local anesthesia. Patients experience a 90% success rate and have a fast and mild recovery allowing them to resume normal activity within 48 hours. And it's covered by most insurance plans!

To schedule a free 10-15 minute varicose vein screening, please call today.

909/450-0393

Space is limited. Please wear loose fitting, comfortable clothing.
